SPECIALIZED PRINT ENVIRONMENTAL POLICY

Introduction and Objectives

Specialized Print is committed to the protection of the environment by minimising the impact of its operations through adoption of sustainable practices and continuous improvements in environmental performance and control, by offering innovative products and solutions to clients and customers, and by purchasing responsibly.

Specialized Print accepts responsibility for the harmful effects its operations have on both the local and global environment and is committed to reducing them. The company will take a pro-active and balanced approach to managing business activities in an environmentally responsible way.

Policy Statement

Specialized Print aims to:

- Comply with all relevant environmental legislation
- Implement effective environmental management systems to ensure the environmental awareness of our workforce
- Use energy and raw materials efficiently and dispose of waste responsibly
- Actively promote the waste hierarchy (reduce, reuse, recycle) internally and to our customers and suppliers
- Source and promote a product range to minimise the environmental impact of both production and distribution
- Maintain communication with interested parties on environmental issues
- Implement a training program for staff and other building-users to raise awareness of environmental issues and enlist their support in improving our performance and adopting environmentally responsible working practices
- Encourage the adoption of similar principles by our suppliers
- Quantify our impact on the environment, and utilise targets to encourage continued improvement and identify new actions
- Take a pro-active and balanced approach to managing our business activities in order to minimise any negative impacts on the environment wherever possible
- Seek to support relevant projects and programmes that will conserve, and where possible, enhance resources and biodiversity
- Engage with the local resident and business communities on biodiversity and resource-enhancing projects and initiatives

Targets

We are committed to continual environmental improvement. Specialized Print's board will monitor the effectiveness of this Policy and the progress of the measures identified in the associated Action Plan on a regular basis and annually. Continuous monitoring will allow us to track progress towards the achievement of the following targets:

- To reduce our greenhouse gas emissions by a further 10% over the next 5 years
- To source 100% of the company's electrical energy from renewable energy generation in 2017

Carbon Footprint Summary 2015

Summary	Unit	Cost	tCO2e
Electricity	8,824 kWh	£1,305	3.9
Natural gas	16,191 kWh	£743	3.0
Diesel	19,333 miles	-	4.8
Total annual tCO2e	-	£2,048	11.7

This evidences a 27% reduction since our 2013 baseline carbon footprint was calculated. The 2013 baseline was a development of the 2008/09 carbon footprint and included diesel fuel, emissions from vehicle miles.

NOTE: Diesel fuel, emissions from vehicle miles was not included in the 2008/09 baseline calculation.
